

3.1 Induction of employees and volunteers

Policy statement

We provide an induction for all employees and volunteers to fully brief them about the setting, the families we serve, our policies and procedures, curriculum and daily practice.

Procedures

- We have a written induction plan for all new staff, which includes the following:
 - Introductions to all employees and volunteers.
 - Familiarisation with the building, health and safety, and fire and evacuation procedures.
 - Ensuring our policies and procedures are read and adhered to.
 - Introduction to the parents, especially parents of allocated key children where appropriate.
 - Familiarisation with confidential information in relation to any key children where applicable.
 - Details of the tasks and daily routines to be completed.
- The induction period lasts at least two weeks. The manager inducts new employees and volunteers. A member of the senior management team inducts new managers.
- During the induction period, the individual must demonstrate understanding of and compliance with policies, procedures, tasks and routines.
- Successful completion of the induction forms part of the probationary period.
- Following induction, we continue to support our staff to deliver high quality performance through regular supervision and appraisal of their work.

3.2 First aid

Policy statement

We can act to apply first aid treatment in the event of an accident involving a child or adult. At least one adult with a current first aid certificate is on the premises, or on an outing, at any one time. Newly qualified staff who achieved an early year's qualification at level 2 or 3 on or after 30 June 2016 also have a paediatric first aid certificate to be counted in the adult: child ratios. The first aid qualification includes first aid training for infants and young children. We have evidence of due diligence when choosing first aid training and ensure that it is relevant to adults caring for young children.

Procedures

The first aid kit

Our first aid kit is accessible always and contains the following items:

- Triangular bandages (ideally at least one should be sterile) x 4.
- Sterile dressings:
 - Small x 3.
 - Medium x 3.
 - Large x 3.
- Composite pack containing 20 assorted (individually-wrapped) plasters x 1.
- Sterile eye pads (with bandage or attachment) e.g. No 16-dressing x 2.
- Container of 6 safety pins x 1.
- Guidance card as recommended by HSE x 1.

In addition, the following equipment is kept near to the first aid box:

- 2 pairs of disposable plastic (PVC or vinyl) gloves.
- 1 plastic disposable apron.
- A children's forehead 'strip' thermometer.
- A supply of ice is kept in the freezer.

- Information about who has completed first aid training and the location of the first aid box is provided to all our staff and volunteers. A list of staff and volunteers who have current PFA certificates is displayed in the setting and made available to parents.

- The first aid box is easily accessible to adults and is kept out of the reach of children.
- There is a named person in the setting who is responsible for checking and replenishing the first aid box contents.
- Medication is only administered in line with our Administering Medicines policy.
- In the case of minor injury or accidents, first aid treatment is given by a qualified first aider.
- In the event of minor injuries or accidents, we normally inform parents when they collect their child, unless the child is unduly upset, or we have concerns about the injury. In which case we will contact the child's parents for clarification of what they would like to do, i.e. whether they wish to collect the child and/or take them to their own GP.
- An ambulance is called for children requiring emergency treatment. We contact parents immediately and inform them of what has happened and where their child has been taken.
- Parents sign a consent form at registration allowing a member of staff to take their child to the nearest Accident and Emergency unit to be examined, treated or admitted as necessary on the understanding that they have been informed and are on their way to the hospital.
- Accidents and injuries are recorded in our accident record book and, where applicable, notified to the Health and Safety Executive, Ofsted and/or local child protection agencies in line with our Recording and Reporting of Accident and Incidents Policy.
